

FREE CUSTOMIZATION WINDOW

Documentation

INTRODUCTION

The Free Customization Window allows you to customize a capsule-style character directly inside the Unity Editor. This version includes a lightweight feature set designed for testing, prototyping, and UI demonstration. Advanced customization, full blendshapes, premium characters, high-detail materials, and accessories are part of the Paid Version.

WINDOW OVERVIEW

You can open the Free Customization Window from:
Tools → Free Customization Window

A preview character is automatically spawned when the window opens. All changes update instantly.

1. BODY COLOR

The free version provides basic color presets and a lock option to prevent color changes during randomization.

Free Version Includes:

- Basic colors
- Section locking

Paid Version Adds:

- Full color palette
- 30+ themed skins

2. FACE MATERIAL

Switch between included face presets. They update instantly on the preview character.

Free Version Includes:

- Simple faces

Paid Version Adds:

- Expanded facial expressions
- High-detail materials

3. HAT SELECTION

Select from a small set of sample hats. Only one hat is active at a time.

Free Version Includes:

- Sample hats
- Automatic selection handling

Paid Version Adds:

- Full accessory library
- Character-specific hats

4. BASIC SHAPE ADJUSTMENTS

The free version includes simple sliders for minor body variation. These are visual only and not blendshape-based.

Free Version Includes:

- Simple shape sliders

Paid Version Adds:

- Complete blendshape deformation system

5. CAMERA CONTROL

The camera icon switches between the focused customization camera and your Scene view, allowing quick preview and workflow flexibility.

6. ACTION BUTTONS

Randomize: Creates a random free-version character.

Reset: Restores defaults.

Clear Preview Character: Removes the character from the scene.

Generate Prefab: Saves automatically to:

Assets/FREE/Pack_FREE_PartyCharacters/

A unique file name is generated automatically.

FREE VS PAID CONTENT

Free Includes:

- 1 base character

- Basic color presets
- Sample faces
- Sample hats
- Simple shape sliders
- Prefab exporting

Paid Includes:

- 30+ characters
- Full blendshapes
- All faces & hats
- Premium materials
- Themed character sets

UPGRADE

Upgrade to unlock all characters, full customization, complete blendshape support, and the full accessory library.
